

CORPORATE PROFILE

About Us

Kowasys (M) Sdn Bhd is an industrial process automation & engineering solutions provider established in 2022 with their head quarter at Kuala Lumpur, Malaysia.

Kowasys strive to offer smart factory automation & process control with high precision, high efficiency, sustainable innovative technology & cost-effective solutions that satisfying customer requirements & needs

Kowasys believes that with the technology innovation, together with highly skilled, experiences and technically capable workforce will lead **Kowasys** towards the success

Vision & Mission

VISION

To establish ourselves as the premier provider of material handling & automation solutions in Malaysia & SEA

MISSION

Continuously innovating and consistently to deliver professional, value added services & supports that exceed customer's stringent needs & expectations

Core Values

INNOVATION

Continuously develop new technology that follow market trend & needs

COMMUNICATION

Listen to customer carefully, agile and responsive to meet customers' unique needs

DIVERSITY

Focus on customer's welfare is main priority

Focus Market

Food & Beverage

Pharma & Life Science

Bakery & Confectionary

Dyes, Pigments & Inks

Plastic & Rubber

Specialty Chemical

Solutions Overview

Raw Material Inventory

Raw Material Dispensing

Conveying, Dosing & Filling

Mixing & Blending

FINISHED GOODS WAREHOUSE

Finish Goods Inventory

Raw Material Inventory & Dispensing

1

Eliminates human errors

2

Ensures the correct type & amount of ingredients used

3

Ensures the correct sequence is followed

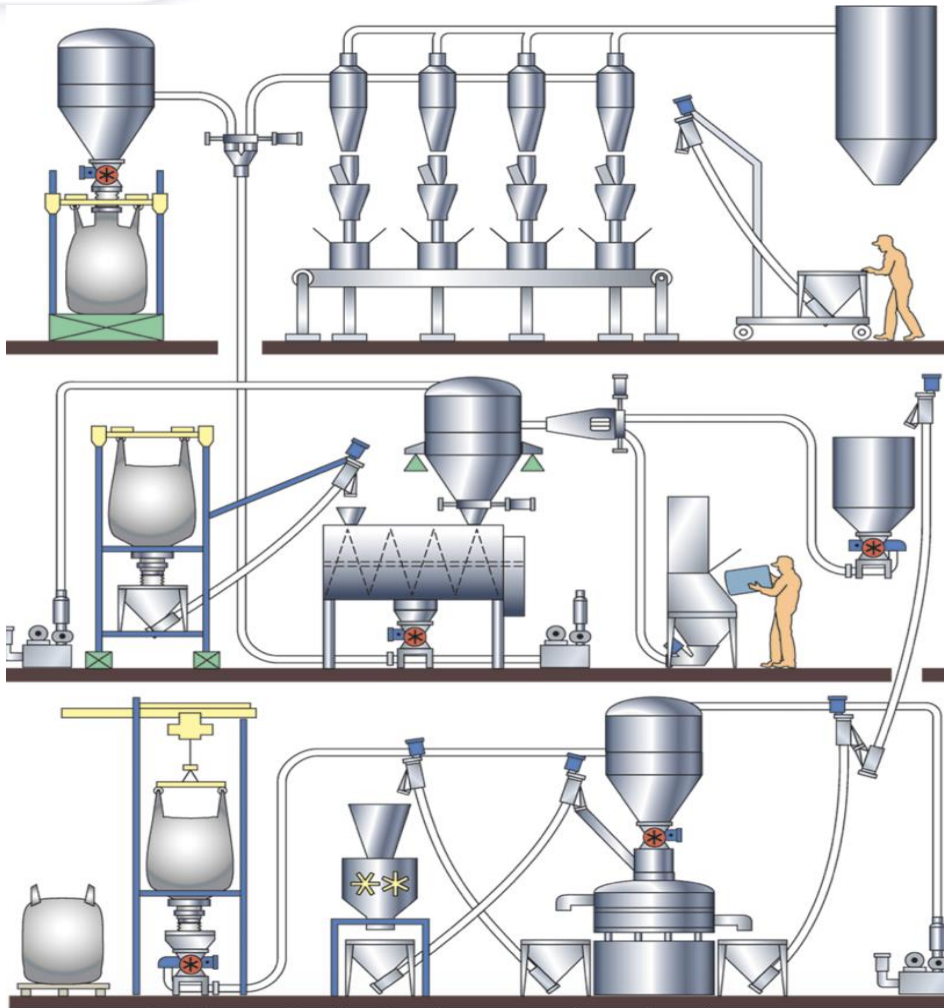

4

Ensures end to end traceability

5

Improve production yield & batch consistency

Hybrid Smart Batching System

1

Automation eliminates human errors

2

Ensures the accuracy

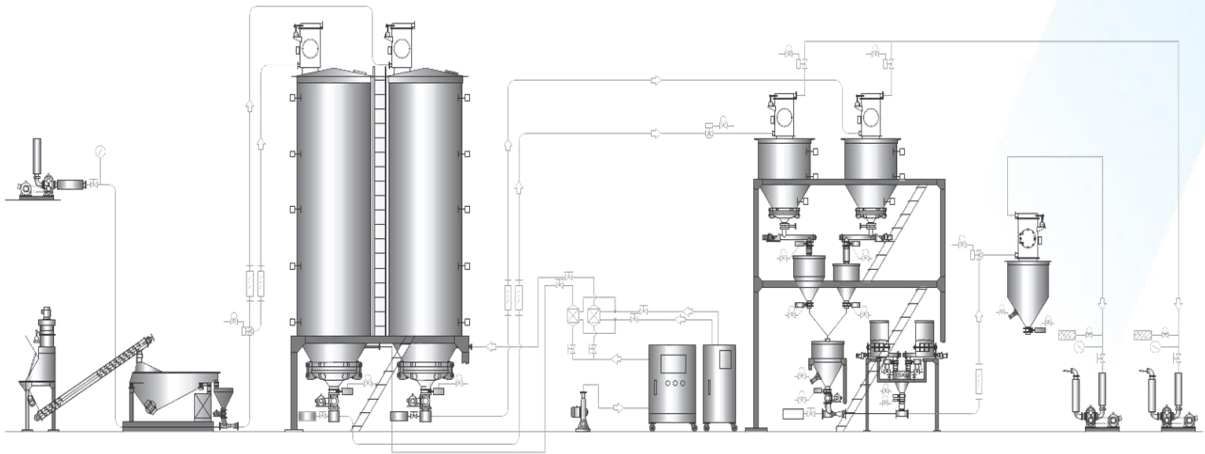

3

Ensures end to end traceability

4

Improve production yield & batch consistency

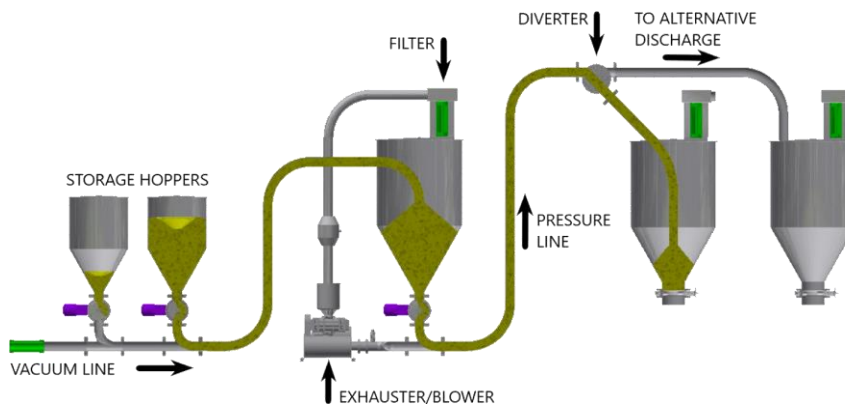

Bulk Solids & Powder Handling

Bag Dumping & Feeding

Pneumatic Conveying

Batching & Weighing

1

Suitable for powders & granules

2

Micro to macro ingredients conveying

3

Reduce manpower & operation cost

4

Improve production yield & batch consistency

Data Logging & Tracking System
